ABOUT OPERA BALTIMORE

Opera Baltimore creates a thrilling, meaningful shared experience between our artists and audiences. Our vision to Build Community through Opera takes us from the traditional opera stage to outdoor venues, from pre-schools to retirement communities, from church lawns to libraries. Founded in 2009 as Baltimore Concert Opera, the company was renamed Opera Baltimore in 2022, establishing a new commitment to expanded offerings which include fully-staged opera in addition to our already successful concert operas, audience development, civic practice and education programs.
